

Closing Devices for Liquid Food Processing

FS104-P, FS104-M, FS105, FS107 & FS108

Flexible, Precise & Adaptable

Once a product has been processed by an OMVE machine, it needs to be packaged in order to maintain stability. The OMVE closing devices are designed to facilitate more hygienic and standardized closing of your product. All filling & closing devices are easy to operate and allow for easy shelf-life testing. OMVE offers a broad range of modular closing equipment which complements the FS fillers & CF carbonators, giving you maximum flexibility when packaging your product.
