

Homogenization Range

Inline Sanitary & Aseptic Homogenizers from 10L/h up to 200L/h

HP102

Inline Bench-Top
Homogenizer

10L/hr, 2-Stage, 600bar

- Continuous & stand-alone process
- Cost-effective solution
- Frequency converter included

HP202

Inline Bench-Top
Homogenizer

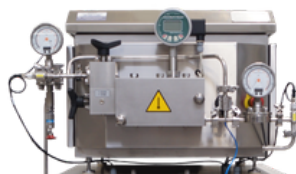

20L/hr, 2-Stage, 600bar

- Sanitary or aseptic execution
- Remote flow control via HTST/UHT
- Integrated design, SIP/CIP ready

HP203

Inline 3-Piston
Bench-Top Homogenizer

30-50L/hr, 2-Stage, 400-600bar

- Sanitary or aseptic execution
- Robust 3-piston unit, less pulsation
- Integrated design, SIP/CIP ready

HP303

Inline 3-Piston
Homogenizer

50-100L/hr, 2-Stage, 400-600bar

- Sanitary or aseptic execution
- 3-piston, reducing tear & wear
- Remote flow & pressure control

HP304

Inline 3-Piston
Homogenizer

100-200L/hr, 2-Stage, 400-600bar

- Compliant with 3A standards
- FDA-approved elastomers
- Fully automated for reliable process

Homogenization Range

Inline Sanitary & Aseptic Homogenizers from 10L/h up to 200L/h

10L/h HTST/UHT + Homogenizing + Filling

50L/h HTST/UHT + Homogenizing + Filling

20L/h HTST/UHT Direct & Indirect + Homogenizing + Filling

30L/h Blending + HTST/UHT + Homogenizing + Fermenting + Structuring

50-100L/h Blending + HTST/UHT + Homogenizing + Carbonating + In-Container Pasteurization

100L/h Blending + Indirect HTST/UHT + Hold tubes + Direct UHT, Homogenizing, Aseptic Filling
